Name:

(b) (6) (b) (6) (WITNESS)

Affiliation:

Former Employee/Peck Iron and Metal Company

Telephone:

(b) (6)

Type of Interview: In-Person**Date of Interview:** March 25, 2009

On March 25, 2009 the WITNESS was interviewed at his residence by (b) (4) Senior Investigator, of (b) (4) the WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24 the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with Peck Iron and Metal (PIM) Site located in Portsmouth, VA.

The WITNESS stated that he was employed by the Peck Iron and Metal Company from approximately 1978 to 1995.

The WITNESS stated that he was initially hired by PIM to work at the Pinners Point location. The WITNESS explained that Pinners Point ("PP") was a Peck owned and operated ship breaking operation.

The WITNESS stated that he was hired by Peck as a safety officer at PP. The WITNESS stated that he supervised the breaking operation and insured that the laborers and torch operators operated safely.

The WITNESS stated that Julius Peck purchased large ships from the U.S. Navy and transported the ships to the PP operation. The WITNESS stated that these ships were usually gutted. The WITNESS stated that these ships included aircraft carriers, destroyers and submarines.

When asked the names of any of these ships, the WITNESS stated that he cannot recall.

When asked to describe the scrap that was retrieved from the ships at PP, the WITNESS provided the following.

The WITNESS stated that most of the scrap consisted of steel, iron, steel beams, turbines and stainless steel.

The WITNESS explained that when the hulls and steel compartments were cut up by setline torches someone had to be stationed on the other side of the structure being cut. The WITNESS stated that the torching process generated a melted substance known as "slag". The WITNESS stated that the slag consisted of metal shavings and paint. The WITNESS stated that this substance was highly flammable and was contained in buckets.

When asked where PP transported the scrap from the cutting operation at PP, the WITNESS stated that the scrap was transported to the PIM yard in Portsmouth.

The WITNESS stated that in 1980 he was transferred from PP to the PIM yard in Portsmouth. The WITNESS stated that he was assigned to the scale house and was the primary operator of the scale operation.

The WITNESS explained that all loads of scrap entered the PIM yard at the scale house. The WITNESS explained that he filled out a weigh ticket with information that included the name of the truck driver, type of the scrap, name of the company and the weight of the contents of the truck. The WITNESS explained that he provided a copy of the weigh ticket to the truck driver and turned in the original ticket to the office.

The WITNESS stated that scrap purchased by Peck through bids or in bulk bypassed the scale house. The WITNESS stated that he does not know the types of this scrap or the names of the companies who sold this scrap to PIM.

When asked to describe the types of scrap that was purchased by PIM and that came through the scale house, the WITNESS provided the following.

- copper
- brass
- mixed steel
- aluminum
- stainless steel
- iron

When asked the names of the businesses who sold scrap metal to PIM and to describe the types of scrap metal for each company, the WITNESS stated that he has a failing memory and cannot recall specific names.

When asked if he reviewed a list of company names would help his memory, the WITNESS stated possibly.

(b) (6)

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA.

ABB National Industries, Hampton, VA: Could not recall.

Alcoa (Reynolds):

- The WITNESS stated that he recalls Alcoa bringing in aluminum. The WITNESS could not recall how often Alcoa sold aluminum to PIM.

American Gem Corporation, Chesapeake, VA: Could not recall.

Anheuser-Busch, Inc., Williamsburg, VA: Could not recall.

Argent Marine, Solomons, MD: Could not recall.

Associated Naval Architects, Inc., Portsmouth, VA: Could not recall.

CSX Transportation Co., Charlotte, NC: Could not recall.

Electric Motor and Contracting Co., Chesapeake, VA: Could not recall.

Ford Motor Company, Norfolk, VA:

- The WITNESS stated that Ford Motor Company occasionally sold car bodies that had been damaged to PIM. The WITNESS stated that the car bodies included the batteries and tires.

General Electric Company, Richmond, VA: Could not recall.

General Foam Plastics Corp., Norfolk, VA: Could not recall.

General Motors Corporation: Could not recall.

Gwaltney Company, Portsmouth, VA: Could not recall.

Newport News Shipbuilding and Dry Dock Co., Newport News, VA ("NNSD"):

- The WITNESS stated that NNSD sold scrap to PIM on both a bid basis and spot sale basis. The WITNESS stated that the spot sale scrap was brought through the scale house. The WITNESS could not recall the types of scrap.

Norfolk Shipbuilding and Dry Dock Co., Norfolk, VA: Could not recall.

Overhead Door Company, Virginia Beach, VA: Could not recall.

Phillip Morris, Inc., Richmond, VA: Could not recall.

Plasser American, Chesapeake, VA: Could not recall.

Potomac Electric Power Co., Washington, D.C.: Could not recall.

Power Mechanical, Inc., Hampton, VA: Could not recall.

Southeastern Public Service Authority, Chesapeake, VA: Could not recall.

Sumitomo Machinery Corp., Chesapeake, VA: Could not recall.

U. S. Navy, Norfolk, VA:

- The WITNESS stated that the U.S. Navy sold scrap metal to PIM on a bid basis and the WITNESS did not know the types or amount of scrap that PIM purchased from the Navy.

Type of Interview: In-Person**Date of Interview:** November 11, 2008

On November 11, 2008 the WITNESS was interviewed at his residence by (b) (4) (b) (4); Senior Investigator, of (b) (4) (b) (4). The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24, the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with the Peck Iron and Metal Site (PIM) located in Portsmouth, VA.

The WITNESS stated that he was employed by the Newport News Shipbuilding and Dry Dock Company ("NNSD") from approximately 1976 to 1988. The WITNESS stated that he was employed as a coordinator of surplus sales.

The WITNESS stated that NNSD was in the business of new shipbuilding construction and ship repair for the United States Navy. The WITNESS stated that NNSD also began ship repair services to private customers in 1987. The WITNESS was unable to recall any of the names of these private customers.

The WITNESS explained that as a coordinator of surplus sales he was one of many individuals who identified surplus scrap and property from the ships being worked on at NNSD and putting this scrap and material out for sale by competitive bid.

The WITNESS explained that NNSD maintained a bid list of scrap metal companies in the area and bid requests were sent to each of these companies.

When asked if PIM was one of the scrap metal companies that NNSD contracted, the WITNESS stated yes. The WITNESS stated that PIM was contracted with often. The

WITNESS was unable to recall how many times PIM won scrap contracts with NNSD. The WITNESS stated that PIM was contracted with by NNSD during the entire time period the WITNESS was employed by NNSD.

The WITNESS explained that all excess material and scrap metal was stored on the salvage yard at NNSD.

When asked to describe the types of scrap that NNSD sold to PIM, the WITNESS provided the following.

- Scrap Metal
- Light iron
- Copper
- Nickel

When asked if NNSD sold asbestos to PIM, the WITNESS stated that he does not recall.

When asked if NNSD sold piping to PIM, the WITNESS stated yes and explained that the piping that had been removed from the ships was part of the scrap metal.

When asked if any of this piping contained insulation or asbestos, the WITNESS stated that he does not know.

The WITNESS was asked if he recalls NNSD working on the USS Long Branch. The WITNESS stated that he cannot recall.

When asked if scrap sold to PIM also contained "Groat," the WITNESS stated that he was not familiar with Groat.

When asked if transformers were sold to PIM, the WITNESS stated that he has no knowledge.

When asked the names of other PIM employees that may have relevant knowledge, the WITNESS provided the following.

- (b) (6) The WITNESS stated that (b) (6) was also a surplus sales coordinator.

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA.

ABB National Industries, Hampton, VA: No knowledge.

Alcoa (Reynolds): No knowledge.

American Gem Corporation, Chesapeake, VA: No knowledge.

(b) (6)

Type of Interview: In-Person

Date of Interview: March 17, 2009

On March 17, 2009 the WITNESS was interviewed at his place of employment by (b) (4) (b) (4) Senior Investigator, of (b) (4) (b) (4). The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24 the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with Peck Iron and Metal (PIM) Site located in Portsmouth, VA.

The WITNESS stated that he was employed by PIM from 1975 to January 1998. The WITNESS stated that Julius Peck had owned the PIM facility in Portsmouth since 1945. The WITNESS stated that in 1975 Julius Peck sold the PIM scrap yard to the following British scrap Company.

- Bird International.

The WITNESS stated that Bird International (Bird) operated the PIM scrap yard until 1979. The WITNESS stated that in 1979 Bird sold the PIM scrap yard back to Julius Peck.

When asked if he worked for Bird during the time period Bird operated the PIM scrap yard, the WITNESS stated no. The WITNESS further explained that from 1975 to 1979 the WITNESS worked for the Peck Equipment Company. The WITNESS stated that the Peck Equipment Company was located adjacent to the PIM scrap yard at the address of 3850 Elm Street. The WITNESS stated that the Peck Equipment Company occupied three large warehouses previously owned by Proctor and Gamble Company.

ENFORCEMENT CONFIDENTIAL

When asked if the Peck Equipment Company rented the warehouses from Proctor and Gamble the WITNESS stated that Julius Peck may have rented the warehouses initially; however, the WITNESS stated that Julius Peck eventually purchased this property.

The WITNESS explained that Peck Equipment purchased surplus ship equipment such as turbines, engines and ship parts. The WITNESS stated that the U. S. Navy published monthly catalogs listing equipment needed. The WITNESS stated that Peck Equipment would sell the surplus equipment to the Navy.

The WITNESS explained that when Peck sold the PIM scrap yard to Bird, Peck was precluded by the contract with Bird from getting into the scrap business within a fifty mile radius of PIM. The WITNESS stated that Julius Peck started the Richmond scrap yard as a result.

The WITNESS explained that he was the controller/bookkeeper for PIM during the entire time he was employed by PIM. The WITNESS stated that he paid accounts billable and prepared bills for payment. The WITNESS stated that he was assisted by (b) (6)

The WITNESS was asked the names of the Companies who sold PIM scrap metal and disposed of the scrap at PIM the WITNESS provided the following.

- U.S. Government: The WITNESS stated that PIM's biggest customer was the Government, and more specifically the Navy. The WITNESS stated that PIM purchased scrap through auctions held at the St. Julian's Annex. The WITNESS stated that Scrap from military basis throughout the east coast was shipped to the St. Julian's Annex. The WITNESS stated that PIM also bid on bulk scrap through the Department of Defense Material Command. The WITNESS stated that the scrap consisted of iron, non-ferrous metals and steel.
- Oceana Naval Air Station: The WITNESS stated that PIM made "spot" purchases from Oceana. The scrap included pipes and steel.
- Newport News Shipbuilding and Dry Dock Company ("NNSC"): The WITNESS stated that NNSC was a large account and that PIM purchased heavy steel, plates from ships steel beams.
- AT&T Company: The WITNESS stated PIM purchased wire and cooper from AT&T.
- Verizon: The WITNESS stated that PIM purchased wire and cooper from Verizon.
- Norfolk-Portsmouth Beltline: The WITNESS stated that PIM purchased rail, spikes, bolts and switches from this Company.
- Proctor and Gamble: The WITNESS explained that prior to 1975 the P&G factory located adjacent to PIM was a soap factory. The WITNESS stated that in

ENFORCEMENT CONFIDENTIAL

approximately 1975 the P&G plant was converted to a peanut producing factory. The WITNESS stated that P&G sold steel bins and old motors to PIM.

- Colonas Ship Yard: The WITNESS stated that PIM purchased aluminum, iron and light steel from Colonas.
- Virginia Power and Electric Company ("VEPCO"): The WITNESS stated that VEPCO was a steady customer at PIM, however he could not recall the types of waste.
- Anheuser Busch: The WITNESS stated that Anheuser Busch was a customer of PIM and the Peck facility in Richmond. The WITNESS could not recall the types of waste purchased from this Company.
- CSX Transportation, Inc.: The WITNESS stated that PIM purchased scrap from CSX on a regular basis however he was unable to recall the type of scrap.
- Gwaltney: The WITNESS stated that PIM purchased scrap from Gwaltney on a regular basis. The WITNESS described the waste as duck work, conveyer systems and condensers. When asked if the condensers contained Freon, the WITNESS stated that he does not know.
- Norfolk Shipbuilding & Dry Dock: The WITNESS stated that this Company was a regular customer at PIM. The WITNESS was unable to recall the types of scrap.
- Plasser American: The WITNESS stated that Plasser was a semi-regular customer at PIM. The WITNESS described the scrap as steel frames and beams.
- Sumitomo Machinery Corporation of America ("SMCA"): The WITNESS stated that SMCA was a regular customer at PIM. The WITNESS could not recall the types of Scrap.
- Woodington Electric: The WITNESS stated that Woodington was a regular customer and that PIM purchased wire from Woodington.

The WITNESS stated that PIM purchased scrap from many other companies however he was unable to recall any further names.

When asked if he was aware of the location of any records, the WITNESS stated yes and provided the following.

- The WITNESS stated that when he left employment with PIM in 1998, all of the records relating to PIM were located in the building at 3500 Elm Street. The WITNESS stated that these records included all books and ledgers covering the prior twenty years.

ENFORCEMENT CONFIDENTIAL

When asked the name of the insurance company that carried PIM insurance, the WITNESS stated that PIM contracted with (b) (6) to handle all insurance matters.

The WITNESS was asked to explain the association of the following companies to the Peck family. The WITNESS provided the following.

- Peck Iron and Metal Company: The WITNESS stated that Peck Iron and Metal was used as a holding company as well as the name of the PIM location in Portsmouth.
- Peck-Portsmouth Recycling: The WITNESS stated that he was unfamiliar with this name.
- ELM Leasing Company: The WITNESS stated that ELM leasing company was the Peck Company that leased the warehouse next to 3500 Elm Street. The WITNESS stated that Peck leased this warehouse to numerous businesses for storage of equipment.
- JSP Land Company, Inc.: The WITNESS stated that JSP was organized so that Julius Peck could rent a portion of the property under JSP Land Company to PIM and receive the rent for his property.

When asked the names of other PIM employees, the WITNESS provided the following.

(b) (6) Scale operator
(b) (6) Yard supervisor.
(b) (6) Assistant bookkeeper.

The WITNESS stated that PIM employed more than fifty laborers and truck drivers. The WITNESS indicated that these employees were usually from the local area.

The WITNESS stated that the area known as Carddock was a local neighborhood and (b) (6) (b) (6)

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA. The WITNESS stated that he cannot recall the types of scrap that was purchased by PIM. The WITNESS provided the following information.

ABB National Industries, Hampton, VA: Could not recall.

(b) (6)

Type of Interview: In-Person

Date of Interview: February 10, 2009

On February 10, 2009 the WITNESS was interviewed at his residence by

(b) (4)

(b) (4)

The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24 the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with Peck Iron and Metal (PIM) Site located in Portsmouth, VA.

The WITNESS stated that he was employed by Peck Iron and Metal located in Portsmouth, VA from 1970 to 1998. The WITNESS stated that PIM closed down in 1998.

When asked to describe his duties while employed by PIM, the WITNESS provided the following.

The WITNESS stated that he was the head mechanic and provided repairs and maintenance to all of the equipment operated by PIM.

When asked to describe the types of equipment operated by PIM, the WITNESS provided the following.

- Tractors: The WITNESS stated that PIM operated six tractors. The WITNESS stated that these tractors were used to transport containers to client's locations. The WITNESS stated that PIM owned numerous containers which were 20 feet to 40 feet long. The WITNESS did not know the cubic feet dimensions. The WITNESS explained that the containers were placed at locations where PIM received contracts to take scrap metal. The WITNESS explained that when the containers were half full the

customer called PIM and a tractor was sent to pick up the container and transport the container to PIM.

- Railroad cranes. The WITNESS stated that PIM operated four railroad cranes. The WITNESS explained that railroad cranes were cranes mounted on a railroad platform and operated on the railroad spur located on the PIM property. The WITNESS stated that the cranes were moved up and down the spur and unloaded rail cars that entered the PIM property containing scrap metal.
- Caterpillars: The WITNESS stated that PIM operated two caterpillars that were used to move metal that was placed on the yard at PIM.

The WITNESS stated that he worked on these vehicles in a garage located on the east end of the property.

The WITNESS was asked to identify the PIM customers who sold scrap metal to PIM.

The WITNESS explained that he did not have day to day exposure to the scrap operation at PIM. The WITNESS stated that his knowledge is limited. The WITNESS then provided the following information.

- Southeastern Public Service Authority ("SPSA"): The WITNESS stated that the SPSA operated landfill was located on the border of PIM off of Victory Boulevard. The WITNESS stated that a portion of the landfill was on the PIM property.
- Smithfield Ham Company ("SHC"): The WITNESS stated that he recalls SHC selling condensers to PIM. The WITNESS stated that these condensers were sometimes stored in one of the Proctor and Gamble buildings located adjacent to PIM. The WITNESS stated that PIM eventually purchased the Proctor and Gamble buildings and property that were located adjacent to the PIM operation. The WITNESS does not recall the time period that Proctor and Gamble was purchased.
- Newport News Shipbuilding and Dry Dock Company ("NNSD"): The WITNESS stated that PIM bid on contracts with the NNSD when NNSD was refurbishing ships. The WITNESS stated that PIM placed containers at the NNSD and that the NNSD employees loaded these containers. The WITNESS stated that PIM trailers picked up these containers when they were full and transported these containers to PIM. When asked to identify the types of scrap in the containers the WITNESS stated that he was only aware of steel and iron.
- Ford Motor Company: The WITNESS stated that Ford brought in car bodies. The WITNESS stated that PIM operated a car crusher and that these cars were crushed. The WITNESS stated that most of the crushed cars were shipped to the Peck operation located in Richmond, VA. The WITNESS explained that PIM did not have a shredder, but the Peck operation in Richmond did have a shredder. When asked if

PIM operated a sheerer, the WITNESS stated yes. The WITNESS explained that the crushed cars were too large to be processed through the sheerer.

- Alcoa: The WITNESS stated that Alcoa brought in aluminum to PIM on a regular basis. The WITNESS stated that he has no further information relating to Alcoa.
- U.S. Navy: The WITNESS stated that the U.S. Navy was one of the biggest customers of PIM and that PIM bid on numerous contracts with the Navy to purchase scrap. The WITNESS has no further information relating to the U.S. Navy.

When asked the names of other employees at PIM, the WITNESS provided the following.

(b) (6)

- David Knittle
- Christine Perry

When asked if he was aware of the Peck Equipment Company the WITNESS stated yes. The WITNESS stated that the Peck Equipment Company was located on George Washington Highway next to PIM. The WITNESS stated that the Peck Equipment Company stored turbines and pumps in one of the Proctor and Gamble buildings. The WITNESS had no further information relating to the Peck Equipment Company.

When asked to explain the duties of each of the Pecks who worked at PIM, The WITNESS provided the following.

- Julius Peck: The WITNESS stated that Julius Peck was the owner and in charge of all of the Peck operations.
- David Peck: The WITNESS stated that David Peck was in charge of the Peck operations located in Richmond, VA.
- Stanley Peck: The WITNESS stated that Stanley Peck was in charge of the Peck Equipment Company.
- Aaron Peck: The WITNESS stated that Aaron Peck was the general foreman at PIM.

When asked if Victor Peck worked at PIM, the WITNESS stated occasionally. The WITNESS stated that (b) (6)

(b) (6)

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA.

ABB National Industries, Hampton, VA: Cannot recall.

Alcoa (Reynolds): See comments above.

Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was cooperative and forthcoming. He is (b) (6) and was very mentally aware.

The WITNESS indicated that he was focused on keeping the equipment running and did not pay much attention to the scrap metal operation.

The WITNESS stated that he would sign a copy of this interview summary.

When asked if he wanted his name kept confidential to the extent possible, the WITNESS stated that he does not care.

(b) (6)

Affiliation: Former Employee/Peck Iron and Metal Company

Telephone: (b) (6)

Type of Interview: In-Person

Date of Interview: September 21, 2009

On September 21, 2009 the WITNESS was interviewed at his residence by (b) (4) (b) (4) Senior Investigator, of (b) (4) (b) (4). The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 004 the Peck Iron and Metal Site, Portsmouth, VA (the "Site"). The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with the Peck Iron and Metal Site located in Portsmouth, VA (PIM).

The WITNESS stated that he was employed by Peck Iron and Metal (PIM) from 1954 to 1995. The WITNESS stated that he initially worked at the Richmond, VA location. The WITNESS stated that over the 41 years he worked for PIM, he was periodically sent to the PIM facility in Portsmouth. The WITNESS stated that he also worked at the Portsmouth PIM facility on a part-time basis from 1995 to 1996.

When asked to describe his duties while employed by PIM, the WITNESS provided the following:

The WITNESS stated that he was a salesman and coordinator for customer service. The WITNESS stated that he occasionally filled in at the scale house at the Portsmouth PIM.

When asked to describe his duties when he worked on the scales at PIM Portsmouth, the WITNESS provided the following:

The WITNESS stated that scrap purchased from bids did not pass through the scales. The WITNESS stated that trucks transporting scrap from bids were sent directly to the yard and separated by the workers in the yard.

The WITNESS stated that all other scrap transported to the PIM Portsmouth was weighed at the scale. The WITNESS stated that he would inspect the contents of the load and complete a hand written sheet identifying the type of waste that was in the truck. The truck would then proceed to the yard, empty its load, and return to the scale empty. The WITNESS stated that the truck was weighed empty.

The WITNESS was asked to describe procedures at PIM Portsmouth when hazardous waste was part of the scrap.

The WITNESS stated that prior to approximately 1980 there were no specific procedures when handling hazardous waste.

When asked if PIM Portsmouth accepted electrical transformers, the WITNESS stated yes. The WITNESS explained that the U.S. Navy and Virginia Power Company brought in electrical transformers. The WITNESS stated that the transformers were supposed to be empty of any liquid. The WITNESS stated that PIM Portsmouth bid on bulk scrap from Virginia Power and the U.S. Navy. The WITNESS stated that this scrap would also include condensers. The WITNESS stated that he does not know how this metal was sold.

The WITNESS was asked if batteries were accepted at PIM Portsmouth. The WITNESS stated yes. The WITNESS stated that cars were brought in by private individuals, as well as General Motors. The WITNESS stated that he does not know how the batteries were disposed of or sold. The WITNESS stated that "in the old days" batteries were broken up. The WITNESS stated that he does not know how the broken batteries were disposed of.

The WITNESS was asked to identify companies whose scrap was purchased at PIM Portsmouth.

- Southeastern Public Service Authority ("SPSA"): The WITNESS stated that the SPSA operated landfill was located on the border of PIM off of Victory Boulevard. The WITNESS stated that a portion of the landfill was on the PIM property. The WITNESS stated that SPSA sold scrap to PIM.
- Newport News Shipbuilding and Dry Dock Company ("NNSD"): The WITNESS stated that PIM bid on contracts with the NNSD when NNSD was refurbishing ships. The WITNESS stated that PIM Portsmouth purchased scrap metal from NNSD. The WITNESS stated that he does not know what type of scrap metal was purchased.
- Ford Motor Company: The WITNESS stated that Ford brought in car bodies. The WITNESS stated that PIM operated a car crusher, and that these cars were crushed. The WITNESS stated that the crushed cars were shipped to the PIM facility at Richmond.
- Alcoa: The WITNESS stated that Alcoa brought in aluminum to PIM on a regular basis. The WITNESS stated that he has no further information relating to Alcoa.

- U.S. Navy: The WITNESS stated that the U.S. Navy was one of the biggest customers of PIM Portsmouth, and that PIM bid on numerous contracts with the Navy to purchase scrap. The WITNESS has no further information relating to the U.S. Navy.

When asked the names of other employees at PIM, the WITNESS provided the following:

(b) (6)

- David Peck
- Bill Brewster

(b) (6)

The WITNESS was asked if he had any knowledge of the following companies' waste or scrap being sold to PIM, or disposed at the PIM facility in Portsmouth, VA.

ABB National Industries, Hampton, VA: Cannot recall.
Alcoa (Reynolds): See comments above.
American Gem Corporation, Chesapeake, VA: Cannot recall.
Anheuser-Busch, Inc., Williamsburg, VA: Cannot recall.
Argent Marine, Solomons, MD: Cannot recall.

Redacted

containers were half full; PIM would pick up the full container and leave an empty container. The WITNESS stated that much of the scrap metal contained lead base paint. The WITNESS was unable to provide any additional information relating to the type of scrap purchased by PIM. The WITNESS stated that containers supplied by PIM at the Norshipco were weighed at the Norshipco Site and the PIM Site. The WITNESS stated that Norshipco would keep a copy of their weigh ticket.

- Sumitomo Machinery: The WITNESS recalled additional information relating to this Company. The WITNESS stated that Sumitomo would occasionally retool at their manufacturing plant. The WITNESS stated that PIM would purchase scrap from this retooling which would include electric motors. The WITNESS does not know if any scrap contained PCBs.
- Southeastern Public Service Authority ("SPSA"): the WITNESS stated that SPSA sold scrap metal that was brought to the Landfill. The WITNESS stated that individual employees of SPSA picked scrap metal from the landfill and sold this scrap to PIM. The WITNESS stated that SPSA also picked up washers, dryers and refrigerators from home owners and sold these items to PIM.

When asked if he had any knowledge of liquid waste, PCBs, grease, oil, Freon or asbestos that was sold to PIM, the WITNESS stated that he had no knowledge. The WITNESS stated that when containers were brought in by the PIM truck drivers, the contents were weighed at the scale house. The scale operator was supposed to inspect the contents of the container to verify the types of metal being sold to PIM. The WITNESS stated that the scale operator had a movable step ladder that was used to look inside the containers and trucks. The WITNESS stated that there was no way to see or inspect items that were not located on the top of the container.

The WITNESS further explained that if there was something that was obviously not permitted to be disposed of at PIM, the crane operator would be the only employee who could identify these items and notify the office. The WITNESS used as an example a full 55-gallon steel drum.

When asked to further explain the disposition of records generated at PIM, the WITNESS provided the following.

The WITNESS stated that PIM operated autonomously from the Richmond facility and that all records and paperwork was maintained at the Portsmouth facility.

The WITNESS explained that when David Peck became the sole owner of PIM in approximately 1993, the WITNESS stated that he was directed to call the Richmond facility with raw sale numbers at the end of each month. The WITNESS stated that PIM continued to maintain the records generated at PIM which included the weigh tickets and monthly recapitulation of the largest customers.

Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was cooperative and forthcoming.

The WITNESS suggested that I interview crane operators and yard employees for more specific information relating to the types of scrap that was received at PIM.

The WITNESS stated that he would sign a copy of this interview summary.

When asked if he wanted his name kept confidential to the extent possible, the WITNESS stated that he does not care.

Type of Interview: In-Person

Date of Interview: September 23, 2010

On September 23, 2010 the WITNESS was interviewed at her residence by (b) (4) (b) (4) Senior Investigator, of (b) (4) (b) (4). The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24 the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape-recorded. During the course of this interview the WITNESS and Interviewer drove to the corner of Victory Blvd. and Elm Street (The entrance to Peck Iron and Metal) and observed the Site from the public street.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for area residents.

The WITNESS was asked to explain any association he had with Peck Iron and Metal Site located in Portsmouth, VA ("PIM").

The WITNESS stated that he has lived at his current address since 1941. The WITNESS stated that PIM is located approximately four miles from his residence and that he played on the Site many times. The WITNESS stated that he worked at the Navy Ship Yard ("NSY") in Portsmouth from 1960 to 2000 and that the entrance to the NSY is located directly across the street from the entrance to PIM. The WITNESS stated that he drove by the entrance to the PIM every morning and evening he went to work. This gave the WITNESS many years of observations of activities at PIM. The WITNESS stated that he was employed as a machinist during the time he was employed at NSY.

The WITNESS indicated that as a child growing up he and many of his friends played on PIM. The WITNESS stated that he recalls observing ammunition on the PIM property. The WITNESS stated that he specifically recalls picking up a hand grenade on the PIM. The WITNESS stated that this hand grenade still had the pin intact. The WITNESS stated that he threw the hand grenade in a wooded area. The WITNESS stated that he had observed numerous ammunition shells of all sizes with intact projectiles through out the PIM.

When asked to describe his general observations at PIM the WITNESS provided the following.

The WITNESS stated that he recalls that in the approximately 1960s to 1970s Proctor and Gamble ("P&G") had a plant on the PIM property. The WITNESS stated that he had observed a pipe coming out of the main P&G building. The WITNESS stated that this pipe ended at Paradise Creek and that the pipe dumped a white lard type substance into the Creek. The WITNESS stated that this pipe leaked and puddles of the lard substance were seen at many places along the pipe line on PIM.

The WITNESS pointed out a green cement building located on PIM and stated that he had observed numerous 55-gallon steel drums stored in this building. When asked if he recalled any markings or names on these drums the WITNESS provided the following.

The WITNESS stated that he observed drums with the name Sunoco stenciled on the side; The WITNESS stated that he also observed many red and blue drums stored in this building however

When asked the names of the companies who sold scrap metal to the PIM at Portsmouth, or the names of companies that the WITNESS had observed entering the PIM, the WITNESS provided the following.

- General Motors: The WITNESS stated that General Motors stored packaged marine diesel motors at PIM. The WITNESS stated that these motors were used for Navy landing craft. The WITNESS stated that when the Navy shipyard ordered a number of these motors, Peck was responsible to unpack and clean the motors. The WITNESS stated that this packaging included paraffin, oil and an unknown oily substance.
- Alcoa: The WITNESS stated that he had observed Alcoa Aluminum trucks enter PIM containing aluminum and that he observed aluminum on the PIM property.
- EMC Electric Motor and Contracting Company: The WITNESS stated that motors from EMC on PIM.
- General Electric Company: The WITNESS stated that he observed General Electric enter the PIM with open top containers containing boxes of motors. The WITNESS was unable to
- Newport News Shipbuilding and Dry Dock Company ("NNSC"): The WITNESS stated that he had observed NNSC drop off hydraulics systems and catapults at PIM.
- Norfolk Ship Yard: The WITNESS stated that the Norfolk Ship Yard overhauled Navy ships and that Peck received scrap metal from these overhauls.
- VEPCO: The WITNESS stated that he observed VEPCO enter PIM with flat bed trucks and that he had observed transformers on these trucks.

- CSX Transportation: The WITNESS stated that CSX entered the PIM Site on a railroad track spur and that CSX operated both flat bed cars and gondola cars on this spur to enter PIM. When asked the WITNESS stated that he recalls observing electrical transformers on the flat bed cars. The WITNESS stated that he had no information about where these transformers originated.
- Southeastern Public Service Authority ("SPSA"): The WITNESS stated that the property that SPSA is now located was part of the PIM property and was used as part of the PIM operation.

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA. The WITNESS stated that he cannot recall the types of scrap that was purchased by PIM. The WITNESS provided the following information.

ABB National Industries, Hampton, VA: Could not recall.
Alcoa (Reynolds): See comments above.
American Gem Corporation, Chesapeake, VA: Could not recall.

Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was cooperative and forthcoming.

The WITNESS stated that because of his interest and profession as a machinist he was very interested in the types of material that Peck dealt in. As such he was probably more observant of activities at PIM than most people.

The WITNESS stated that many other companies dealt with Peck at PIM. He indicated that he will probably recall more names and will contact me with any additional information.

The WITNESS stated that she would sign a copy of this interview summary.

When asked if he wanted his name kept confidential to the extent possible, the WITNESS stated that she does not care.

(b) (6)

Type of Interview: In-Person

Date of Interview: February 11, 2009

On February 11, 2009 the WITNESS was interviewed at his residence by (b) (4). The WITNESS (b) (4) was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001, Site 24 the Peck Iron and Metal Site, Portsmouth, VA (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked, and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and did not want an attorney present. No other persons were present and this interview was not tape recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was asked to explain any association he had with Peck Iron and Metal (PIM) located in Portsmouth, VA.

The WITNESS stated that he was employed by the Electric Motor Company ("EMC") from 1983 to 1996. The WITNESS stated that he was employed by EMC as an electrician.

The WITNESS explained that he was assigned by EMC to PIM as a contract electrician. The WITNESS stated that he worked at PIM during most of his employment with EMC. The WITNESS stated that he was the contract electrician at PIM from 1983 to 1996. The WITNESS stated that he became a full time employee with PIM from 1996 to 1997. The WITNESS stated that PIM closed in approximately 1997.

The WITNESS stated that while employed by PIM from 1996 to 1997 he was the head electrician for Peck. The WITNESS stated that he worked at both PIM and the Peck scrap yard located in Richmond, VA.

The WITNESS explained that he worked on all of the railroad track cranes and electrical motors used throughout the yard at PIM and the Peck scrap yard at Richmond, VA.

When asked the names of businesses whose scrap was purchased by PIM in Portsmouth, the WITNESS stated that he was not involved in the scrap metal business directly and was not

able to recall many of the businesses who sold scrap to PIM. The WITNESS was able to recall the following.

- Electrical Motor Company ("EMC"): The WITNESS stated that EMC refurbished electric motors and sold the old copper wiring to PIM.
- Collonnas (correct spelling unknown) Shipyard, Norfolk, VA: The WITNESS stated that PIM had a contract with Collonnas to provide Collonnas with a 40 cubic yard container on site. The WITNESS stated that Collonnas called PIM when this container was one half full and a PIM truck would pick up the container. The WITNESS stated that the container was supposed to contain scrap metal such as copper and steel. The WITNESS stated that PIM had this contract for at least the period of 1996 to 1997. The WITNESS stated that he does not know how often the containers were picked up at Collonnas.
- Newport News Shipbuilding & Dry Dock Company ("NNSDD"). The WITNESS stated that PIM also provided NNSDD with a 40 cubic yard container and that when this container was one half full NNSDD called PIM to pick up the container. The WITNESS stated that PIM supplied this container to NNSDD from at least 1986 to 1997.
- Alcoa: The WITNESS stated that PIM purchased aluminum from Alcoa. The WITNESS stated that some of this aluminum came to PIM; however the majority of Alcoa aluminum was purchased by the Peck facility located in Richmond, VA.
- U.S. Navy: The WITNESS stated that the U.S. Navy was the biggest customer that sold scrap to PIM. The WITNESS stated that U.S. Navy scrap came in to PIM through contracts bid by PIM.

The WITNESS explained that in approximately early 1997, PIM was disqualified by the U.S. Navy to conduct any further business with the U.S. Navy.

When asked why PIM became disqualified, the WITNESS stated that (b) (6)

(b) (6)

When asked the names of other PIM employees that may have relevant knowledge of customers who sold scrap metal to PIM, the WITNESS provided the following.

- William Bruster: The WITNESS stated that Bruster was the office manager at PIM.
- Richard Collins: The WITNESS stated that Collins was a vice president of the Peck Enterprises and was a salesman for PIM.

The WITNESS was asked if he had any knowledge of the following companies waste or scrap being sold to PIM or disposed at the PIM facility in Portsmouth, VA.

ABB National Industries, Hampton, VA: Cannot recall.
Alcoa (Reynolds): See comments above.
American Gem Corporation, Chesapeake, VA: Cannot recall.

Interviewer's Comments and Suggested Follow-up Interviews

Interviewer Comments: The WITNESS was cooperative.

The Witness stated that he did not have much contact with the scrap yard activities and had limited knowledge of the type of scrap and the names of the customers who PIM purchased scrap from.

The WITNESS stated that he would sign a copy of this interview summary.

When asked if he wanted his name kept confidential to the extent possible, the WITNESS stated that he does not care.

Suggested follow-up Interviews:

- William Bruster
- Richard Collins
